

SUPERIOR CLEANING IN A FRACTION OF THE TIME

WHEN FOOD SAFETY AND EFFICIENCY COUNT.

Tackle your Food Safety and Regulatory challenges with an industrial strength washer from Douglas Machines. Each model is skillfully designed to provide consistent results time after time – while saving labor, water and energy.

Choose from over 80 standard models to clean trays, pans, parts, totes, racks, belts, bins, vats, barrels and buckets. Batch and continuous cleaning systems are available to clean several hundred to several thousand containers an hour.

Reduce food safety hazards, document operation and ensure compliance with FSMA, cGMP, HACCP and HARPC Programs. Call **800-331-6870** for consultation or visit www.douglmac.com.
