

**Healthy prebiotic fiber**

# Fibregum™

## The new generation of Natural Fiber

Fibregum™ is an all-natural and GMO-free source of soluble dietary fiber with a guaranteed minimum content of 90% (dry weight AOAC).

Fibregum™ is the perfect natural solution to meet all your clean label requirements.

Clinical studies have demonstrated the numerous health benefits of Fibregum™ and its prebiotic properties. The unique progressive fermentation of Fibregum™ by beneficial intestinal micro flora improves digestive health with no signs of discomfort.

Fibregum™ can be easily incorporated into formulations with low viscosity, but high solubility. Fibregum™ remains stable at extreme temperatures over wide pH range.

## All the benefits of fibers plus more!

APPLICATIONS	USE LEVEL	BENEFITS (in addition to fiber enrichment)
Beverages Fruit juices	1-3%	Improves mouthfeel
Yogurts	1%	Improves mouthfeel Reduces astringency
Cereal Bars	4-10%	Binding agent Moisture regulation
Extruded Snacks Cereals	2-6%	Lubricant during extrusion Extends shelf life Improves crispiness
Baked Goods	1-3%	Extends shelf life Improves texture Enhances mouthfeel Replaces digestible carbohydrates
Frozen Pastries	1-3%	Increases moisture retention Prevents crystallization Replaces digestible carbohydrates
Ice Cream	0.4-4%	Gives a smoother & less crystalline texture All natural emulsifier
Bacteria protection	0.2-2%	Improves growth & viability

## Fibregum™ Bio

- Organic soluble fiber
- NOP and other organic certifications
- Offers the same functionalities and nutritional advantages as Fibregum™

## Active botanical extracts

With its state of art facility located in France, Nexira offers to the nutraceutical industry active, natural and organic botanical extracts and specialty ingredients with recognized health benefits. Through its extensive research including clinical trials, Nexira can provide premium quality innovative ingredients, with well-documented health properties to address the demands of the nutraceutical market.

Nexira's portfolio includes antioxidants, and active botanicals for digestive health, weight management, stress management, sport nutrition, cognitive health and so on.
